For 2026-09-14, could you confirm whether line 3 (85025, 1 units, $212.00) duplicates line 2, or explain the separate service? [E1]

2. Ask about the units for 80053

For 2026-09-14, please explain why 80048 (column 2, lines 5) was billed separately with 80053 (column 1, lines 4), given the active Medicare hospital NCCI PTP edit with modifier indicator 0, and provide any supporting documentation. [E4]

5. Could 96360 / 96374 include a bundled charge?

For 2026-09-14, please explain why 96374 (column 2, lines 7) was billed separately with 96360 (column 1, lines 6), given the active Medicare hospital NCCI PTP edit with modifier indicator 1, and provide any supporting documentation. [E5]

5. SCOPE OF THIS REVIEW

This limited review could not assess 2 of 32 line checks. Missing information and unsupported services have not been cleared.

Questions to discuss with billing, not a determination of an error. Medicare coding references may not apply to your plan. Published prices do not establish patient responsibility or savings.

Yours sincerely,
